SUMMER
CAMP
AVANZADO
by CaboTrek®
2026

This summer, take your children's adventure to the next level!

The Advanced Summer Camp by Cabo Trek is a 5-day workshop for kids from 8 to 15 years old, designed to create new challenges and strengthen their aquatic skills. During this experience, they will reinforce previous knowledge and acquire new abilities in the waters of Cabo San Lucas.

They will learn advanced snorkeling techniques, an introduction to freediving, maritime first aid, and expand their knowledge of local marine life.

Additionally, they will be part of a space that fosters teamwork, discipline, and environmental care alongside certified guides and instructors.

New challenges that will become their best stories!

GENERAL INFORMATION

Schedule: 9:00 am - 1:00 pm
Duration: 5 days | 4 hours per day
Location: Cabo San Lucas
Meeting Point: Cabo Trek Office
Price: Starting at $4,990 MXN per child*
**Check our packages and discounts on page 7 **
Capacity: 8 children per camp

START DATES

13 de Julio
03 de Agosto
24 de Agosto

ACTIVITY SCHEDULE

All sessions are divided into two parts:

1. Field trip (3 hours)
2. Closing activity (1 hour)

The following activities will be conducted in each session:

DAY 1
Boat trip to Pelican Rock

- Presentation of camp objectives and team introduction.
- Review of basic snorkeling techniques.
- Introduction to ocean hazards: currents, swells, etc.
- Safety rules and water prevention.
- Creation of "Buddy" teams and practice of the M.A.R.I.N.O. acronym.

DAY 2
Boat trip to Empacadora Beach

- Review of maritime first aid.
- Marine knots practice.
- Assisting a teammate in distress: lifebuoy rescue, CPR, and oxygen administration.

DAY 3
Boat trip to Santa María Beach or Gavilanes

- Fish morphology recognition.
- Identification of marine species and their roles in ecosystems.
- Responsible observation of marine life.

DAY 4
Boat trip to Chileno Bay

- Introduction to freediving (apnea).
- Basic techniques for breathing, relaxation, and water control.
- Supervised static and free apnea practice.

DAY 5
Boat trip to Médano Beach

- Underwater beach cleanup (apnea).
- Environmental awareness and ocean conservation.
- Closing workshop celebration with parents.

BENEFITS OF ATTENDING OUR 2026 ADVANCED SUMMER CAMP!

At **Cabo Trek**, we are recognized for our impeccable track record in responsible water tours and expeditions, as well as **our commitment to environmental conservation**. As a follow up to our previous program, the **Advanced Summer Camp** offers children the opportunity to **reinforce and deepen their maritime skills**, both physically and emotionally.

We believe that introducing youth to the sea in a **more conscious and technical** way provides more than just fun; it builds confidence, autonomy, and a love for nature, strengthening their sense of belonging and integrating the marine environment into their culture.

During our Advanced Summer Camp, we promote:

- Environmental awareness
- Local scientific knowledge
- Discipline and self-control
- Full mastery of aquatic skills
- Response and rescue capabilities
- Exploration of new perspectives
- Responsible interaction with nature
- Practical and active learning
- Leadership and shared safety
- Space for advanced experiences and challenges
- Sense of ecological responsibility
- Screen-free fun

Environmental Awareness and Ocean Care

In the **Advanced Summer Camp**, we foster a respectful relationship with the sea, where children learn about:

- The underwater waste cycle and its global impact.
- Best practices for waste collection using apnea techniques.
- Marine species identification and their role in the ecosystem.

Our goal is for young people to discover that every dive is an opportunity to heal the ocean and strengthen their own future.

OUR ADVENTURE TEAM

Philipp Moser

CEO, PADI & First Aid Instructor with 25 years of maritime experience. NOM-09 Certified Guide, blending safety and expertise to deliver responsible and memorable marine adventures.

Donna Schechter

Freediving (AIDA/PADI), Scuba & First Aid Instructor with extensive experience in children's camps. Specialist in underwater safety, sharing her passion for the sea in an educational and fun environment.

Carlos Pérez

Biology Professional, NOM-09 Certified, AIDA 3 Freediver, and Scuba Diver with 12 years in youth programs. Expert in safety and education, connecting kids with the natural world.

Maria Pia Ceccarelli

Marine Biologist, PADI Dive Master & Freediver specialized in Child Psychology. Summer Camp Coordinator and photographer, dedicated to youth development in the marine environment.

Julieta Moser

PADI Freediver and expert in aquatic dynamics, with experience leading our Summer Camp. She organizes recreational activities focused on creating an environment of trust and fun for children.

Valeria Ontiveros

Bachelor in Alternative Tourism, Rescue Diver, and PADI Freediver with experience guiding our Summer Camp 2025. She combines safety and environmental education, fostering a love for marine life.

Adriana Ballena

Marine Biologist and PADI Instructor specializing in Nitrox, Project AWARE, and Coral Reef Conservation. Nature photographer dedicated to guiding educational and authentic experiences inspired by scientific rigor.

Make a difference this summer!

Thanks to our collaboration with the NGO 'Dar para Recibir,' we are opening spots this year for children from this community center to join the Summer Camp experience. If you would like to sponsor a scholarship or make a voluntary donation to this program, we are at your disposal to provide you with all the details.

Your support ensures that marine education knows no limits!
